Manufactured to comply with AS 1328.1:1988

GLTAA certified beams

Fire rated in accordance with AS 1720.4 and BAL 29

Chain of Custody as per AS 4707

KEY BENEFITS

- Our products are grown, produced and manufactured in Australia for Australian conditions.
- Parkside heartwood is naturally insect and decay resistant, and every piece is treated with an ACQ H3 treatment, ensuring any sapwood that is used is also fully durable.
- GL20 beams utilise resorcinol, a tried and proven lamination glue suitable for the toughest of applications.
- Our GL20 beams are certified by internationally recognised PEFC, denoting that all products are sourced from sustainably managed forests.

APPLICATIONS

- Lintels
- Bearers
- Beams
- Rafters
- Columns
